### **Pelabuhan WIKA Beton Siap Dukung Kelancaran Mudik Lebaran 2026**

**Jakarta, 12 Maret 2026** — PT Wijaya Karya Beton Tbk (WIKABETON) menyatakan kesiapan operasional Pelabuhan WIKABETON di Lampung Selatan dalam mendukung kelancaran arus mudik Lebaran 2026 melalui rute alternatif Ciwandan–WIKABETON, yang akan beroperasi pada 13–20 Maret 2026. Fasilitas ini disiapkan untuk mengantisipasi lonjakan trafik penyeberangan Merak–Bakauheni sehingga perjalanan pemudik tetap aman dan nyaman.

Ketentuan operasional Pelabuhan WIKABETON merujuk pada Surat Keputusan Bersama Dirjen Perhubungan Darat, Dirjen Perhubungan Laut, Dirjen Bina Marga, dan Kakorlantas Polri bernomor KP-DRJD 854 Tahun 2026, HK.201/1/21/DJPL/2026, Kep/43/II/2026, dan 20/KPTS/Db/2026 tentang Pengaturan Lalu Lintas Jalan serta Penyeberangan selama masa angkutan Lebaran. Selama periode tersebut, pelabuhan ini dioptimalkan untuk melayani kendaraan barang Golongan Vb, VIb, dan VII sehingga memisahkan arus logistik serta roda dua dari kepadatan kendaraan pribadi di pelabuhan utama.

Sekretaris Perusahaan WIKABETON, Yushadi, menegaskan bahwa “Kesiapan Pelabuhan WIKABETON merupakan bentuk kontribusi perusahaan dalam mendukung kelancaran arus mudik lebaran 2026 melalui penyediaan infrastruktur yang nyaman dan aman,” ujarnya.

Partisipasi WIKABETON ini menjadi wujud nyata penciptaan nilai berkelanjutan bagi masyarakat dan pemangku kepentingan. Optimalisasi aset pelabuhan memperteguh posisi strategis perusahaan dalam ekosistem Danantara dan BUMN untuk konektivitas nasional yang efisien dan inklusif.

### **WIKA Beton Port Ready to Support Smooth 2026 Eid Homecoming**

**Jakarta, March 12, 2026** — PT Wijaya Karya Beton Tbk (WIKABeton) has declared the operational readiness of the WIKABeton Port in South Lampung to support the smooth flow of the 2026 Eid homecoming via the Ciwandan–WIKABeton alternative route, which will operate from March 13–20, 2026. This facility is prepared to anticipate the surge in Merak–Bakauheni crossing traffic so that travelers' journeys remain safe and comfortable.

The operational provisions of the WIKABeton Port refer to the Joint Decree of the Director General of Land Transportation, the Director General of Sea Transportation, the Director General of Highways, and the Head of the National Police Traffic Corps numbered KP-DRJD 854 of 2026, HK.201/1/21/DJPL/2026, Kep/43/II/2026, and 20/KPTS/Db/2026 concerning Road Traffic and Crossing Management during the Eid transport period. During this period, the port is optimized to serve Group Vb, VIb, and VII logistics vehicles, thereby separating logistics and two-wheeled traffic from the density of private vehicles at the main port.

Corporate Secretary of WIKABeton, Yushadi, emphasized that "The readiness of the WIKABeton Port is a form of the company's contribution to supporting the smooth flow of the 2026 Eid homecoming through the provision of comfortable and safe infrastructure," he said.

This participation by WIKABeton is a real manifestation of creating sustainable value for the community and stakeholders. The optimization of port assets strengthens the company's strategic position within the Danantara and SOE ecosystem for efficient and inclusive national connectivity.
