

PRESS RELEASE

WIKA Beton Ekspertis Tunggal dari Indonesia di Thailand Rail 2026

Jakarta, 1 April 2026 — PT Wijaya Karya Beton Tbk (WIKABETON) tampil menjadi representasi tunggal dari Indonesia pada ajang 3rd Edition Thailand Rail 2026 yang diselenggarakan di Bangkok pada tanggal 30 Maret 2026. Acara ini diinisiasi oleh Bricca Consulting, sebuah perusahaan konsultasi bisnis global yang secara khusus memfasilitasi konferensi strategis serta peluang investasi antara pemerintah dan sektor swasta di bidang infrastruktur. Pada forum transportasi utama Asia Tenggara tersebut, WIKABETON hadir sebagai nara sumber bidang infrastruktur perkeretaapian untuk berbagi pengalaman mengenai strategi aliansi dalam pembangunan transportasi modern berbasis rel.

Dalam kesempatan tersebut, Yomil Ravianda, Manajer Penjualan Regional WIKABETON, tampil sebagai pembicara utama melalui sesi "Lessons Learned of Strategic Alliance Schemes." Ia menegaskan posisi WIKABETON bukan hanya sebagai penyedia material beton pracetak, tetapi juga sebagai pakar sistem perkeretaapian modern, yang memahami keseluruhan rantai nilai, mulai dari desain, fabrikasi, hingga integrasi struktur dan sistem interkoneksi rel. Portofolio proyek strategis seperti LRT Jakarta, MRT Jakarta, dan Metro Manila Subway menjadi bukti keahlian perusahaan dalam mengimplementasikan beton pracetak berstandar tinggi untuk jaringan transportasi berskala internasional.

Dalam forum tersebut, keterwakilan WIKABETON menarik perhatian para pemangku kepentingan karena dianggap sebagai katalisator vital yang mampu menerjemahkan minat investor global menjadi kerja sama bisnis yang nyata di sektor perkeretaapian. Sinergi lintas sektoral dinilai menjadi suatu keharusan untuk memitigasi risiko proyek yang bersifat multidisiplin dan padat modal. Selain itu, integrasi sistem yang kompleks dan perencanaan lintasan panjang juga sangat krusial guna mencapai skala ekonomi optimal serta mewujudkan potensi investasi dalam ekosistem Danantara menjadi aksi pembangunan yang konkret.

Keikutsertaan WIKABETON di forum internasional ini menegaskan komitmen perusahaan untuk terus memperkuat posisinya sebagai ekspertis sistem perkeretaapian Asia Tenggara. Dengan fondasi pengalaman teknis, inovasi manufaktur, dan kolaborasi dengan mitra global, WIKABETON bertekad menghadirkan solusi infrastruktur modern dan berkelanjutan yang mampu meningkatkan konektivitas kawasan serta daya saing global Indonesia.

PRESS RELEASE

WIKA Beton, the Sole Expert Representative from Indonesia at Thailand Rail 2026

Jakarta, 1 April, 2026 — PT Wijaya Karya Beton Tbk (WIKABeton) emerged as the sole representative from Indonesia at the 3rd Edition of Thailand Rail 2026, held in Bangkok on March 30, 2026. This event was initiated by Bricasa Consulting, a global business consultancy firm that specifically facilitates strategic conferences and investment opportunities between the public and private sectors in the infrastructure field. At this premier Southeast Asian transportation forum, WIKABeton participated as a subject matter expert in railway infrastructure to share its experiences regarding strategic alliances in the development of modern rail-based transportation.

On this occasion, Yomil Ravianda, Regional Sales Manager of WIKABeton, served as a keynote speaker in the session titled "Lessons Learned of Strategic Alliance Schemes." He emphasized WIKABeton's position not merely as a provider of precast concrete materials, but also as an expert in modern railway systems, possessing a comprehensive understanding of the entire value chain from design and fabrication to structural integration and rail interconnection systems. The company's portfolio of strategic projects, such as the Jakarta LRT, Jakarta MRT, and the Metro Manila Subway, serves as a testament to its expertise in implementing high-standard precast concrete for international-scale transportation networks.

During the forum, WIKABeton's representation garnered the attention of stakeholders, as the company is regarded as a vital catalyst capable of translating global investor interest into tangible business cooperation within the railway sector. Cross-sectoral synergy is deemed an absolute necessity to mitigate the risks associated with multidisciplinary and capital intensive projects. Furthermore, complex system integration and extensive route planning are highly crucial for achieving optimal economies of scale, as well as for actualizing the investment potential within the Danantara ecosystem into concrete development actions.

WIKABeton's participation in this international forum reaffirms the company's commitment to continuously fortify its position as a leading expert in Southeast Asian railway systems. Built upon a robust foundation of technical experience, manufacturing innovation, and collaboration with global partners, WIKABeton is determined to deliver modern and sustainable infrastructure solutions capable of enhancing regional connectivity and bolstering Indonesia's global competitiveness.
